

## **Portage Specialty: Your Source for Brass Flare Fittings and Parker Brass Components USA**

When it comes to industrial and commercial plumbing and fluid handling, precision and reliability matter. At Portage Specialty, we proudly supply premium-grade **Brass Flare Fittings in the USA** as well as Parker Brass Pipe Fittings trusted across multiple industries. Located in Michigan and serving clients nationwide, our team is dedicated to delivering exceptional brass fitting solutions that meet and exceed expectations.

### **Why Choose Brass Fittings?**

Brass fittings are a cornerstone of fluid transfer systems due to their durability, corrosion resistance, and ability to handle high temperatures and pressures. Whether you are working in the automotive, refrigeration, HVAC, gas, or plumbing industries, brass fittings provide the strength and versatility needed to ensure system integrity.

#### **Some benefits of brass pipe and flare fittings include:**

1. Long-lasting material performance
2. Resistance to corrosion and leakage
3. Excellent conductivity and machinability
4. Compatibility with a wide range of piping materials

#### **Brass Flare Fittings USA – Reliable & Leak-Free Connections:**

At Portage Specialty, we offer **Brass Flare Fittings in USA**, engineered for maximum performance and safety. These fittings are designed to provide a tight, leak-proof seal in high-pressure applications, making them ideal for gas lines, refrigeration systems, and hydraulic setups.

#### **Applications of Brass Flare Fittings:**

1. Automotive fuel lines
2. HVAC and refrigeration systems
3. Hydraulic braking systems
4. Natural gas and propane applications

We understand the need for precision, which is why our flare fittings are manufactured with tight tolerances and built to meet or exceed SAE and other industry standards.

### **Parker Flare Fittings – Trusted Worldwide:**

As an authorized supplier of **Parker Flare Fittings**, Portage Specialty connects you to one of the most trusted brands in the fluid power industry. Parker's fittings are known for their superior engineering, high-pressure capabilities, and exceptional sealing characteristics.

### **Why Choose Parker Flare Fittings?**

1. Made with premium brass for long-lasting performance
2. Wide range of configurations including elbows, tees, unions, and adapters
3. Proven compatibility with copper, brass, aluminum, and welded steel tubing
4. SAE J512 and JIC standards compliance

Whether you need straight, 45-degree, or 90-degree flare fittings, Portage Specialty ensures availability and quick delivery of Parker's complete product line.

### **Parker Brass Pipe Fittings – For Seamless Pipe Connectivity:**

**Parker Brass Pipe Fittings** are essential for creating solid connections between pipe sections or transitioning between different sizes and thread types. These fittings are ideal for instrumentation, air compressors, fuel equipment, and more.

### **Product Options We Offer:**

1. Bushings
2. Couplings
3. Elbows
4. Nipples
5. Plugs and caps
6. Tees and crosses

Every fitting we offer is backed by Parker's global reputation for quality and Portage Specialty's commitment to customer satisfaction. We help our customers find the right Parker fitting solutions for any application.

### **Brass Pipe Fittings in Michigan – Local Supply, Nationwide Reach:**
